Reduction in Size of Council Not Likely to Come Up . To-Night.

Pawnbrokers will be represented in force before the Council Committee on Ordinance. Charter and Reform tonight, when the proposed ordinance regulating the sale of firearms comes up for a second hearing. The measure at present under consideration prohibits pawnbrokers from accepting for pawn, purchasing, or offering for sale, any pistol, dirk, slungshot or weapon of similar character, and requires all dealers, new and second-hand, to secure permission of the Chief of Police before dealing in pistols or similar weapons.

before dealing in pistols or similar weapons.

The ordinance was drawn as a result of a recent report of a grand jury, in which attention was called to the prevalent custom of a certain element in going armed, the weapons being mainly secured from the pawnbrokers' establishments., The Commonwealth's Attorney, Chief of Police and members of the Police Board appeared before the committee at a former sitting, urging the adoption of the measure.

It was stated that reputable dealers in sporting goods, arms and hardware would have no difficulty in securing the necessary permit from the Chief of Police, it being merely intended to have a list at police headquarters of all persons licensed to sell arms, and to cut out the sale of pistols by second-hand stores of the cheaper sort, which members of the committee classed with the grade of pawnshops. The pawnbrokers had the matter recommitted in the Council on the ground that it was class legislation, and that they had not been given a full and fair hearing.

Not Consider Change.
